

ONLINE PRP & PRF PROGRAM

Tuition
\$495
25 CE Credits

Platelet-rich plasma (PRP) and its derivatives are a mainstay in oral implantology. This online program, which includes a pre-recorded live patient demonstration, breaks down the science and explains how autologous blood concentrates work to speed healing and promote tissue regeneration and teaches participants how to identify cases with an indication for the application of PRP and PRF as well as how to select suitable bone grafting materials for use with PRP and PRF. In addition, this course trains participants in proper phlebotomy techniques, essential to the successful use of PRP and PRF. This program is provided in collaboration with Quintessence Publishing.

Topics:

The Science of Natural Wound Healing

Surgical Applications

Biologic Growth Factors, PRP, and BMP

Armamentarium in PRP & PRF Kits

Use of PRF in Guided Bone Regeneration

Principles and Practice of Phlebotomy

Program Provides

- ✓ Recorded live lectures and recorded live surgeries
- ✓ PowerPoint presentations
- ✓ Quiz module
- ✓ Resource center containing manuals, charts, medication protocols, and more
