

# PTERYGOID IMPLANT

## LIVE PATIENT SURGICAL EXTERNSHIP

The pterygoid region provides an alternative anchoring point for implants in cases of highly resorbed maxillary ridges with insufficient bone volume. Pterygoid implants provide increased stability and support while eliminating the need for bone grafting procedures, which can simplify the overall treatment process. Pterygoid implants most often are placed using immediate loading protocols.

**In this 4-day comprehensive live patient program**, doctors will learn pterygomaxillary anatomy, CT scan evaluation, placement overview (position of patient, insertion and angulation, implant placement tools, suturing, and postoperative care), as well as complications and their solutions.

### Program Provides:

Course manual & implants

100 CE Certificate

Train with expert faculty in a 1:1 student-to-instructor ratio

Transportation from San Diego to the CII Baja location and back

*"One of the best courses for full-arch I have attended anywhere in the world. Dr. Al-Faraje is a passionate teacher and a very well-experienced surgeon. I am glad that I attended and highly recommend this program to anyone looking to elevate their skills in full-arch surgery."*

**Dr. Ved Berani**, Victoria, Australia

The program meets the requirements for ICOI fellowship status

**PACE**  
ACADEMY OF  
GENERAL DENTISTRY  
PROGRAM APPROVAL  
FOR CONTINUING  
EDUCATION

California Implant Institute is a Nationally Approved PACE Program Provider for FAGD/MAGD credit. Approval does not imply acceptance by any regulatory authority, or AGD endorsement. Nationally Approved from 8/1/2022 - 7/31/2028. Provider ID 108066

Tuition:  
**\$9,995**

### Key Educational Objectives

Implement step-by-step pterygoid implant surgical protocols on live patients under the direction of Dr. Louie Al-Faraje and staff.

Expedite transition from the classroom to surgically placing pterygoid implants in your office with predictability.

This program may be taken independently or concurrently with the All-on-4 Surgical Externship.
