CALIFORNIA IMPLANT INSTITUTE

MASTER OF ORAL IMPLANTOLOGY PROGRAM

The California Implant Institute and its world-renowned faculty have developed the most comprehensive curriculum available, focusing on essential information that is immediately useful to doctors, their staff, and their patients. This program brings together online programs and live-patient surgical externships, ensuring participants gain the highest level of knowledge and technical skills necessary to provide safe, appropriate, and efficient treatments.

The Master program is designed for general dentists of all implant experience levels, as well as specialists in the fields of prosthodontics, periodontics, and endodontics. The goal of the program is to provide doctors with the right tools for a successful career in implant dentistry.

Key Educational Objectives

- ✓ Implement step-by-step implant surgical and prosthetic protocols on live patients under the direction of Dr. Louie Al-Faraje and staff.
- ✓ Expedite transition from the classroom to surgically placing implants with predictability.

ICOI
The program meets the requirements for ICOI mastership status
