CALIFORNIA IMPLANT INSTITUTE

BASIC TO ADVANCED

LIVE PATIENT SURGICAL EXTERNSHIP

In this 6-day comprehensive live patient program, doctors will learn CBCT planning & surgical anatomy, prosthetic-driven surgical planning, flap design, suturing, atraumatic extraction techniques, socket grafting and simple ridge augmentation, crestal sinus lift techniques, and postoperative management. Doctors will also engage in 4 hours of treatment planning each morning.

Participants will operate and assist across multiple cases per day, rotating roles to maximize their surgical exposure and learning under the guidance of world-class faculty.

Program Provides:

- Course manual & implants
- 100 CE Certificate
- Train with expert faculty in a 2:1 student-to-instructor ratio
- Transportation from San Diego to the CII Baja location and back

Key Educational Objectives

- Implement step-by-step implant surgical protocols on live patients under the direction of Dr. Louie Al-Faraje and staff.
- Expedite your learning curve to transition from the classroom to surgically placing implants in your office with predictability.
- Increase your knowledge and skill in the areas of flap design, implant placement, bone grafting, and suturing techniques.

"The live patient surgical externship is a transformative experience. Dr. Al-Faraje's depth of knowledge and willingness to share his insights made every aspect of the training engaging and invaluable."

Dr. Shay Salehrabi, Monterey Park, California

ICOI

The program meets the requirements for ICOI fellowship status

ACADEMY of GENERAL DENTISTRY PROGRAM APPROVAL FOR CONTINUING EDUCATION
